Gremin® is a proprietary patented ingredient containing green coffee extract from coffee beans and curcumin from Curcuma longa co-processed and infused into a food ingredient carrier. Gremin® is globally the first and only ingredient commercially available exploring the synergistic benefits of dual natural polyphenols, Green coffee bean extract (GCBE) (standardized to Chlorogenic acid) & Turmeric Extract (standardized to Curcuminoids) for the potential health benefits in sports & active nutrition segments. Gremin® is backed with Health Canada NPN and multiple scientific studies including 2 human clinical studies to prove its efficacy as well as safety.

## % improvement in 14 days - ENDURANCE/PERFORMANCE

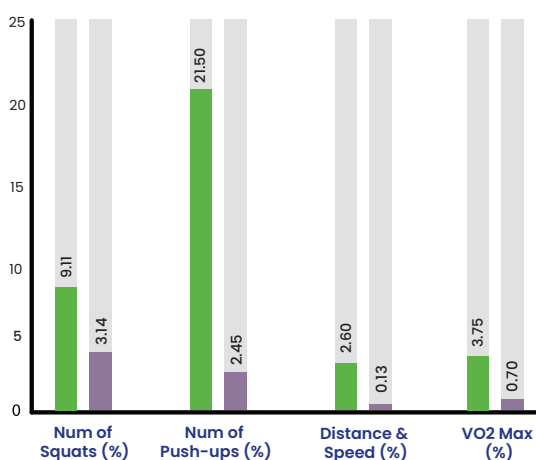

Figure I: Percentage Improvement in Endurance and Performance

## % Improvement in 14 days - STRENGTH / RECOVERY / FATIGUE

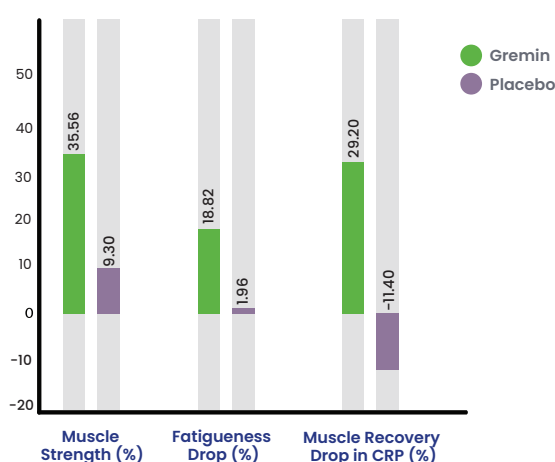

Figure II: Percentage Improvement in Strength, Recovery, Fatigue
